

About us

We are an industry association representing companies involved in all port activities throughout New Zealand.

We have a strong commitment to training, improving safety standards and safe operational processes. The PIA provides a coordinated approach to sector issues and is one easy point of contact and can provide effective industry communication to all parties.

Annual conference

We have an annual conference attended by 70-80 industry leaders and decision makers. They represent Safety, Container Terminal, Bulk Cargo, Container Parks and Stevedores.
